3. Security Cameras in Entrance Driveway, Visitor Parkade and Mailroom

Vehicles that access our entrance driveway from Noel Drive should be identifiable for possible criminal activities, property damages, or traffic bylaw infractions that occur on our strata property. A security camera will be installed to record vehicle license plates as they enter from, or leave to, the street. This camera will not have the ability to monitor unit garage driveways or garages to ensure their privacy.

Our visitor parkade is easily accessible to the public, and it continues to be difficult to protect this area against vandalism, theft, or loitering by unknown persons. The installation of security cameras could help deter illegal behaviour, and the recordings could be used as evidence for police investigations. Cameras would also be located in the mailroom for similar purposes.

4. Security Devices on Strata Lots

Bylaw 47, above on “Privacy Policy for the Owners”, also applies to the installation and use of smart security devices (e.g. security cameras, smart doorbells, security lights) that an Owner may use on the limited strata common property of each strata lot only with council’s written approval.

- (1) Any smart security device mounted externally must comply with Bylaw -9 “Obtain Approval Before Altering a Strata Lot”.
- (2) Exterior mounted security cameras (webcams) are not permitted because they require mounting onto an exterior wall membrane that then becomes subject to moisture penetration and water damage.
- (3) An approved smart doorbell may be used as long as it complies with PIPA guidelines. Smart doorbells cannot obscure or replace the peephole viewer in the front door.

- (4) Tenants require written permission from the owner and council to install a smart security device.
- (5) Failure to comply with section 4 restrictions will result in a minimum \$50 fine (to be applied every 7 days until corrected).

48. Electronic General Meetings

- (1) The Strata Corporation may provide for attendance at an Annual or Special General Meeting by telephone or any other electronic method if the method permits all persons participating in the meeting to communicate with each other during the meeting. For certainty, the Strata Corporation may call an exclusively electronic Annual or Special General Meeting, hold an Annual or Special General Meeting exclusively by telephone or any other electronic method, and is not required to provide for in-person attendance at an electronic Annual or Special General Meeting, provided the electronic method permits all persons participating in the meeting to communicate with each other during the meeting.
- (2) A person who is eligible to vote may attend an Annual or Special General Meeting by electronic means so long as the person and the other participants can communicate with each other.
- (3) Any person attending an Annual or Special General Meeting by electronic means is deemed to be present in person for the purposes of the meeting.
- (4) Despite Bylaw 33., in the event that a General Meeting is held pursuant to Bylaw 33.(4) or an eligible voter attends an Annual or Special General meeting by electronic means, the Strata Corporation has no obligation to make provision for a secret ballot or issue a voting card for, as applicable, that meeting or the particular voter.

49. Level 2 Electric Vehicle Charging Stations NOT permitted in Unit Garages

Due to strata power distribution limitations (confirmed by a 2019 engineering report), Electric Vehicle Charging Stations (EVCS) rated at Level 2 (208 VAC, 20 Amps or higher) are NOT permitted in Unit Garages. Residents can use an EVCS rated at Level 1 (120 VAC, 15 Amps) using an existing wall outlet, or from their 100 Amp panel if a breaker slot is available. Note that an auxiliary or larger panel for an EVCS or any other device is not permitted.

Currently, the main breakers panels in the each of the utility rooms, the interconnecting power cables, and the BC Hydro transformer are not rated to handle multiple Level 2 charging stations to individual garages without significant upgrades and disruptions. Until these very costly upgrades are completed, Strata is unable to allow any Level 2 charging stations without risking an electrical fire hazard and prolonged power outage.

Violation of this bylaw will result in an initial \$200 fine for exceeding strata power limitations. The owner will be required to hire a licensed electrician to remove the circuit from the electrical panel and provide the strata with a receipt. An inspection of the panel by a council member will be required after restoration. If the Level 2 charger is not removed after 1 week of the violation notice, a minimum \$100/day fine will be assessed until compliance is met.
